Huseyn Aliyev

BACKEND DEVELOPER (.NET)

✉ +994505797918   ✉ aliev.hsyn@gmail.com   🔗 github.com/alievh   in linkedin.com/in/alievh

3 years of experience in developing scalable backend solutions using ASP.NET Core, C#, and SQL Server. Proficient in RESTful API development, database management, and Docker for containerization. Strong problem-solving skills with a focus on performance and reliability.

EXPERIENCE

Mentor
🏢 Code Academy   📅 Sep. 2024 – Currently

- Assisting students in understanding complex coding concepts and methodologies.
- Mentoring students on best practices in programming, debugging, and problem-solving.
- Conduct workshops on emerging technologies, coding languages, and software development methodologies to prepare students for real-world challenges.

Backend Developer
🏢 Freelance   📅 Dec. 2022 – Jul. 2023

- Analyzed existing software implementations to identify areas requiring improvement.
- Reviewed code, debugged problems, and corrected issues.

Network Equipment Specialist
🏢 Ultel MMC   📅 Jun. 2021 – Feb. 2022

- Configure and adjust network equipment – Ensure installation, adjustment, and commissioning of equipment and systems at facilities, and monitor its maintenance. Configure devices, register required features and parameters and process obtained results.
- Update software of network equipment – Download and update official software for hardware.
- Troubleshooting in Access switch network – Identify and eliminate problems in faulty network segment.
